The South Australian Health and Medical Research Institute (SAHMRI) welcomes philanthropic support from corporate leaders and their employees.
THE SOUTH AUSTRALIAN HEALTH AND MEDICAL RESEARCH INSTITUTE (SAHMRI) IS ONE OF THE MOST EXCITING AND SIGNIFICANT DEVELOPMENTS IN THE FIELD OF HEALTH AND MEDICAL RESEARCH IN AUSTRALIA.

In order to achieve all of our goals, we must attract and foster the best research minds in the world to work in our facilities, and resource them with the best possible equipment, technology and continued learning opportunities.

However, as a charitable institution, we must rely on your support to do this.
MUTUAL BENEFITS

A partnership with SAHMRI brings mutual benefits. The benefits to the community are clear and tangible - your support will bring us closer to finding better treatments, preventions and even cures for chronic and deadly diseases.

Meanwhile, as each partnership is unique, it will bring with it its own suite of benefits to the company. As a guide, these benefits may include any of (but will not be limited to) the following:

- **Naming rights**: for significant scholarships and lead donations, SAHMRI may be in a position to name the item, activity, building or theme for the company
- **Public recognition**: SAHMRI will take steps to provide public exposure in recognition of the company’s support, including appearing on the SAHMRI Honour Board, alerting the local and industry media (as appropriate), and recognition in our annual report and on our website
- **Internal communications**: SAHMRI can provide corporate partners with stories that the company can use in its internal communications to boost staff morale
- **VIP status**: key representatives of the company will become SAHMRI VIPs, and will be invited to special SAHMRI events, activities and tours.

PARTNERSHIP OPPORTUNITIES

Your company may wish to tailor its giving to an area or activity most in line with the company’s corporate governance mission, or its employees’ wishes. At SAHMRI, we welcome your involvement in any of the following areas:

- Support for a particular area of research interest - SAHMRI’s seven research themes are Aboriginal Health; Cancer; Healthy Mothers, Babies and Children; Heart Health; Infection and Immunity; Mind and Brain; and Nutrition and Metabolism
- Fund PhD research scholarships and endowed research positions, to provide security and longevity for our research activities
- Enable the purchase of specialised, cutting-edge equipment to support the laboratory activities of the Institute
- Fund the development of sophisticated education resources and cultural activities for use in our community.
